Ned Morgan
(212) 882-2357 nmorgan@btig.com

WHAT YOU SHOULD KNOW: Welcome to the Aerospace & Defense Digest, where we highlight a few key stories and themes from the prior week and break down their implications for our coverage and the broader industry. In this edition: SecWar Hegseth attending directed energy weapons demonstrations, the $67.1bn defense supplemental funding request, Lockheed Martin's (LMT, Not Rated) $35.3bn contract for Terminal High Altitude Area Defense (THAAD) interceptors, $17.5bn in low-interest loans for AP1000 nuclear reactors, the Army selecting Anduril (Private) to lead the common data baseline of its Next Generation Command and Control (NGC2) program, AV (AVAV, Buy, $205 PT) appointing William J. Lynn III to its board, Ondas (ONDS, Not Rated) securing +$40mn in new orders, Firefly (FLY, Not Rated) acquiring Space-ng (Private), and Rocket Lab's (RKLB, Neutral) record VICTUS HAZE mission.

- **Hegseth attends directed energy weapons demonstrations at White Sands Missile Base.** Participating systems included AV's (AVAV, Buy, $205 PT) LOCUST, nLIGHT's (LASR, Not Rated) P5 version of the DE-MSHORAD laser weapon system, Lockheed Martin's (LMT, Not Rated) Valkyrie, Epirus' (Private) Leonidas, and a high-power microwave (HPM) variant of Raytheon's (RTX, Not Rated) Coyote. **OUR TAKE:** The directed energy industry has been left in the "valley of death" between R&D and procurement, but we believe this event is a signal that the Pentagon is looking to potentially field these weapons at scale in the coming years. AV's LOCUST continues to be at the forefront of directed energy, with prior demos at White Sands, the southern border, and aboard the USS George H.W. Bush aircraft carrier.
- **White House sends $87.6bn supplemental spending request to Congress, with $67.1bn for defense.** The funds will help cover expenses associated with the war in Iran. It includes $21bn for munitions, $5.1bn for cybersecurity and autonomy, $2.4bn for drones, $4bn for systems related to airborne moving target indication and the space data network backbone, $1.7bn for readiness, $12.1bn for classified programs, and $17.3bn for operational costs. **OUR TAKE:** Congress has been urging the DoW to submit the supplemental request, claiming it would likely be passed quicker than the $1.15tn base budget and $350bn reconciliation requests. We note the base budget is receiving support (house appropriators approved), but reconciliation is facing push-back.
- Lockheed Martin awarded $35.3bn contract for THAAD interceptors. The contract is expected to quadruple production (from 96 to 400 per year), but is undefinitized (i.e., terms are not final). OUR TAKE: This comes on the back of the seven-year THAAD framework agreement signed in January (see A&D Digest #74). President Trump also recently met with munitions manufacturers at the White House to discuss expanding production. We believe we could see other framework agreements turn into production contracts, including those with Raytheon (RTX, Not Rated), Anduril (Private), CoAspire (Private), Leidos (LDOS, Not Rated), Zone 5 (KBGGY, Not Rated), and Castelion (Private), with potential for incremental awards at LMT.

- **Trump administration offering $17.5bn in low-interest loans for utilities to fund AP1000 nuclear reactor build outs.** The funding is intended to accelerate construction of ten US reactors, with new Westinghouse AP1000 units potentially coming online starting in 2035. Five loans would be allocated for two reactors each, with seven utilities having signed formal letters of intent. **OUR TAKE:** This follows last May's executive order calling for ten new large reactors with completed designs under construction by 2030 (see A&D Digest #39), as well as the subsequent $80bn agreement with Westinghouse to support reactor deployment (see A&D Digest #62). Within our coverage, BWX Technologies (BWXT, Buy, $235 PT) and Amentum (AMTM, Buy, $35 PT) could benefit from these buildouts. BWXT has highlighted potential content per AP1000 reactor in the low-hundred-million-dollar range.
- **Army selects Anduril to lead common data baseline of NGC2.** The decision follows ten months of operational evaluation with the 4th Infantry Division and establishes the software foundation on which the Army will scale NGC2. **OUR TAKE:** The contract value was not disclosed because it was awarded under the company's $20bn IDIQ contract that acts as a storefront for its entire product suite. According to DACIS, Anduril has been obligated $138.0mn under NGC2 since FY24. This is another proof point that Lattice could be the connective tissue of the next-generation defense stack.
- **AV appoints William J. Lynn III to board of directors.** Mr. Lynn previously served as the CEO of Leonardo DRS (DRS, Buy, $50 PT) from 2012 to 2026. Prior to DRS, he held senior defense and industry roles including US Deputy Secretary of Defense, Under Secretary of Defense (Comptroller) and CFO, and senior positions at Raytheon. **OUR TAKE:** Before his retirement from DRS, we viewed Mr. Lynn as one of the strongest leaders in our coverage universe. We believe this is a strong appointment and should help AVAV overcome some of its recent woes (see 4QFY26/Investor Day preview).
- **Ondas secures over $40mn in new orders for autonomous defense systems.** The awards were for C-UAS solutions, loitering munition systems, ground systems, and related defense services for customers domestically and abroad. They took place in June, bringing 2Q-to-date order activity to +$150mn. **OUR TAKE:** We view Ondas as an innovator and believe the company is well positioned to benefit from the $66.9bn in unmanned and counter unmanned funding requested in the FY27 budget (see Unmanned Bible).
- **Firefly acquires Space-ng, a provider of AI-powered vision navigation and autonomous guidance systems.** The acquisition will bring proven spacecraft software and camera hardware for Firefly's Blue Ghost landers and Elytra orbital vehicles. Terms of the deal were not disclosed. **OUR TAKE:** Space-ng's vision navigation software was utilized during Firefly's Blue Ghost Mission 1, a mission we were on site to witness with the company last March in Austin, TX (see recap). We view the integration of Space-ng's full technology stack, including spacecraft cameras and AI compute hardware, as a meaningful capability enhancement across Firefly's growing mission manifest, which includes three additional CLPS lunar missions, a NASA MoonFall mission, and a space domain awareness mission for the DIU.
- **Rocket Lab launches VICTUS HAZE in record time for Space Force.** The notice-to-launch window was 16 hours and 42 minutes, shattering the previous Tactically Responsive Space (TacRS) record set by VICTUS NOX by more than 10 hours. Rocket Lab's Pioneer spacecraft is now fully commissioned and conducting complex orbital maneuvers to rendezvous with and conduct proximity operations (RPO) on another on-orbit spacecraft. Separately, Rocket Lab was awarded three Electron launches in support of two NASA missions slated for early 2027. **OUR TAKE:** Rocket Lab's vertically integrated launch-plus-spacecraft capability continues to distinguish it in the responsive space market. Space is an increasingly contested domain, and the ability to launch on short notice and conduct RPO on a non-compliant spacecraft is a differentiated and strategically valuable capability for national security customers.

Notable contract awards for the week of June 22-June 26:

- **June 22:** $121mn cost-plus-fixed-fee order to Boeing (BA, Not Rated) for P-8A Poseidon Increment Three Block Two retrofit kits and installations for the Navy and Royal Australian Air Force (RAAF).
- **June 23:** $8.4bn contract modification to Lockheed Martin to increase the ceiling and extend the ordering period for increased production capacity of Precision Strike Missiles (PrSM) Increment One and procurement of Early Operational Capability assets, follow-on production, development, and obsolescence management through fiscal 2032; $2.0bn fixed-price-incentive-firm-target contract to Boeing for the Mobile User Objective System (MUOS) service life extension Phase II effort.
- **June 24:** $35.3bn multi-year procurement sole-source, fixed-price incentive, undefinitized contract to Lockheed Martin for the production of Terminal High Altitude Area Defense (THAAD) Interceptors.
- **June 25:** $1.1bn fixed-price-incentive-firm-target contract modification to Raytheon for AIM-9X Block II/Block II+ tactical missiles and associated equipment (Lot 26 production).

- **June 26:** $500.0mn firm-fixed-price IDIQ contract to Vertex Aerospace (VVX, Buy, $90 PT) for contractor logistic support services for the Air Force's C-12 aircraft fleet.

Ratings Definitions

BTIG LLC's ("BTIG") ratings, effective June 12, 2017, are defined as follows:

BUY – A security which is expected to produce a positive total return of 15% or greater over the 12 months following the recommendation. The BUY rating may be maintained as long as it is deemed appropriate, notwithstanding price fluctuations that would cause the target to fall outside of the 15% return.

SELL – A security which is expected to produce a negative total return of 15% or greater over the next 12 months following the recommendation. The SELL rating may be maintained as long as it is deemed appropriate, notwithstanding price fluctuations that would cause the target to fall outside of the 15% return.

NEUTRAL – A security which is not expected to appreciate or depreciate meaningfully over the next 12 months.

NOT RATED – A security which is not rated or covered by BTIG.

UNDER REVIEW – Effective immediately, coverage of the following securities is Under Review. Ratings, price targets, disclosures, and estimates for the companies listed below are suspended and should no longer be relied upon.

Distribution of Ratings and Investment Banking Clients

BTIG must disclose in each research report the percentage of all securities rated by the member to which the member would assign a "buy", "neutral" or "sell" rating. The said ratings are updated on a quarterly basis. BTIG must also disclose the percentage of subject companies within each of these three categories for whom the member has provided investment banking services within the previous twelve months.

Current Rating Distribution (as of June 28, 2026):

Coverage Universe	Count	Percent	Inv. Banking Relationships	Count	Percent
Buy	364	66.8%	Buy	121	33.2%
Neutral	178	32.7%	Neutral	44	24.7%
Sell	3	0.6%	Sell	0	0.0%

For purposes of FINRA ratings distribution rules, BTIG's stock ratings of Buy, Neutral and Sell fall into Buy, Hold and Sell categories, respectively.

General Disclosures

Research reports produced by BTIG LLC ("BTIG") are published for and intended to be distributed solely to BTIG institutional and corporate clients. Recipients of BTIG reports will not be considered clients of BTIG solely because they may have received such BTIG report.

To the extent recipient accesses BTIG research, whether on a BTIG research website or through a third-party platform, BTIG is able to search, filter, download and review information on the readership of BTIG's research, including the specific research consumed and the name, company name, email address and, in certain circumstances, the location of the individual who accessed the research (the "Readership Information"). Recipient consents to BTIG's receipt of the Readership Information, including receipt of that information from a third party.

Without BTIG's prior written consent, recipients of BTIG research reports and any other BTIG material whether accessed from a BTIG research website, by email or other electronic means, or through a third-party platform are not permitted to use, in whole or in part, BTIG research reports or any other BTIG material, in connection with or to enable development of machine learning, or other similar technologies, or to train third-party or proprietary artificial intelligence technologies, models, software, platforms, tools or similar technologies, or as a prompt or input to any such technologies.

The research analyst(s) responsible for the preparation of this report receives compensation based upon a variety of factors, including the quality and accuracy of research, internal/client feedback, and overall Firm revenues.

Artificial intelligence tools may have been used in the preparation of this material, including assisting in fact-finding, data analysis, pattern recognition, and content drafting.

BTIG reports are based on public information and BTIG considers the same to be reliable, comprehensive information, but makes no representation or warranty that the reports are accurate or complete. BTIG opinions and information provided in this report are as of the date of the report and may change without notice. An issuer may be classified as "Under Review" or "Research Restricted". In these cases, investors should consider any previous investment recommendation and/or rating to a subject company/issuer to no longer be current and should not be relied upon nor considered a solicitation.

This research report is not an offer to buy or sell or solicitation of an offer to buy or sell any security in any jurisdiction where such an offer or solicitation would be illegal. This research report was not drafted specifically for any particular individual or entity and is not a personal recommendation to participate in any particular trading strategy or transaction. Any recipient of this research report should obtain independent advice specific to their personal circumstances before undertaking any investment activity and must make their own independent evaluation of any securities or financial instruments.

Facts, views or opinions presented in this report have not been reviewed by, and may not reflect information known to, employees or other professionals in the "BTIG Group" (BTIG Group includes, but is not limited to, BTIG and its parents, subsidiaries and/or affiliates). BTIG Group employees, including Sales Representatives and Traders, may provide oral or written commentary or advice that may be inconsistent with the opinions and/or views expressed in this research report. BTIG Group employees and/or its affiliates not involved in the preparation of this research report may have investments in securities or derivatives of securities of companies mentioned in this report that are inconsistent with the views discussed in this report.

Private Company Disclosure: No recommendations, ratings, estimates.

Regarding private companies discussed within this report, BTIG LLC does not assign a rating system. Unlike public companies that are under BTIG LLC research coverage, there are no recommendations, ratings, or estimates available for any of the private companies referenced herein. While the information derived from and contained in this report have been obtained from sources believed to be reliable, it is important to recognize that private companies are not typically subject to the same reporting obligations as publicly traded companies. This can result in less publicly available information, potentially less transparency, and fewer sources of information regarding the private enterprises discussed in these materials. The information contained in this document may differ from information a private company may subsequently make public or otherwise share with investors. BTIG assumes no responsibility for any such discrepancies. The reader should not assume that any discussion of private companies discussed in these materials is to be regarded as an express or implied acknowledgement or accedence to any research expectation of any private company if it goes public.

Investors in securities products bear certain risks in conjunction with those investments. The value of, and income from, any investments may vary because of changes in interest rates or foreign exchange rates, securities prices or market indexes, operational or financial conditions of companies or other factors within or beyond the companies' control. Recipient of the research reports should be aware that investments in securities may pose significant risks due to the inherent uncertainty associated with relying on forecasts of various factors that can affect the earnings, cash flow and overall valuation of a company. Any investment in securities should be undertaken only upon consideration of issues relating to the recipient's overall investment portfolio and objectives (such as diversification by asset class, industry or company) as well as time horizon and liquidity needs. Further, past performance should not be taken as an indication or guarantee of future performance, and no representation or warranty, express or implied, is made regarding future performance. There may be time limitations on the exercise of options or other rights in any securities transactions.

Investing in foreign markets and securities, including ADRs, is subject to additional risks such as currency fluctuation, limited information, political instability, economic risk, and the potential for illiquid markets. Investing in emerging markets may accentuate these risks. Non-U.S. reporting issuers of foreign securities, however, may not make regular or complete public disclosure relating to their financial condition or the securities that they issue.

The trademarks and service marks contained herein are the property of their respective owners. Third-party data providers make no warranties or representations of any kind relating to the accuracy, completeness, or timeliness of the data they provide and shall not have liability of any damages of any kind relating to such data. The report or any portion hereof may not be reprinted, sold or redistributed without the written consent of BTIG. This report is intended only for use by the recipient. The recipient acknowledges that all research and analysis in this report are the property of BTIG and agrees to limit the use of all publications received from BTIG within his, or her or its, own company or organization. No rights are given for passing on, transmitting, re transmitting or reselling the information provided.

Jurisdiction and Dissemination

BTIG is a U.S. broker-dealer and member of FINRA and SIPC.

BTIG Australia Limited ACN 128 554 601, member of ASIC and ASX; BTIG Hong Kong Limited, an Exchange Participant of SEHK and licensed and regulated by the SFC; BTIG Ltd, member of the LSE, authorized and regulated by the FSA; and BTIG Singapore Pte Ltd, registered and licensed with MAS; are all separate but affiliated entities of BTIG.
